Land with 2.1ha with approved project - Alpedrinha

This rustic plot of 21,000 m² presents a unique opportunity for those looking for a quiet and natural space to build their home. With about 10 cork oaks, 5 olive trees and 30 pine trees, it offers a serene country atmosphere.

In addition, the property already has electricity and a well, which facilitates the installation of basic infrastructure. The approved project for the construction of a wooden house with 3 bedrooms and an implantation area of about 100 m² provides a solid foundation for those who want to build their own house in harmony with nature.

Located in an area with potential for appreciation, this plot offers not only a space to live, but also the opportunity to create a peaceful and sustainable haven.
